

## Pink Class Use & Guidelines 2024

The Club has reviewed the usage of Pink (Self-directed training) Class throughout 2023, and the following changes will come into effect when training resumes in 2024.

- Pink Class is available only to **Red, Blue & Purple** class level members. For safety reasons, Beginner to Yellow class members should not over-train their dogs or use equipment unsupervised.
- Members wishing to use Session 2 for Pink Class must advise at Check-in. Please don't use the Facebook Group or message Club Officials as they may not see the message.
- Equipment: Members using Pink Class are solely responsible for setting up and packing away the equipment used.
- Equipment: Members may request that equipment be left out after Yellow Class when checking in. Priority use of the equipment will be allocated to the curriculum classes.
- Members wishing to use Pink Class will not be permitted to interchange between Red or Blue Class and Pink Class. This is to prevent interruption and distraction to instructors and other class members. Handlers must choose a single class to train in in the evening.

These guidelines remain fluid throughout the year and may be amended upon Committee decisions.
